

Parent Participation, Feedback & Comments

Parent Name: _____

We would like to encourage any suggestions, feedback and comments in relation to the following areas:

- Family Orientation
- Policies, Procedures, Practices and Handbooks
- Centre Philosophy and Curriculum
- Family Participation: We would like to encourage any family members who feel they could participate or offer a service to our centre to please let us know so we can cater for this into the services curriculum. This could be reading a story to the children in another language or coming to speak with the children about your profession (i.e. Policeman, Fire fighter, school teacher etc); all offers would be much appreciated.
- Menu
- The Service

The parent feedback and comments form forms part of the continuous improvement process.
